FOREWORD

In exercise of the powers conferred on the Board of Directors of the Ghana Ports and Harbours Authority by the Ghana Ports and Harbours Authority Law 1986 (P.N.D.C.L. 160), the following revised Port Tariff is hereby Published and shall take effect from August 1, 2023.

Where in this Tariff no charge has been prescribed for a particular service, the Ghana Ports and Harbours Authority shall in each particular case determine an appropriate rate to be applied for such services.

In this Port Tariff, unless the context otherwise requires:

“AUTHORITY” - means the Ghana Ports and Harbours Authority established under Section 2 (1) of the Ghana Ports and Harbours Authority Law 1986 (P.N.D.C.L. 160)

“WHARF” or “BERTH” - is the place where a ship lies other than Anchorage and includes a Quay, Pier, Jetty or other landing place.

“PORT DUES” - is the toll or charge assessed against a vessel, cargo and passengers:

- a) for the use by vessels of the access channel, turning basin, berth or wharf and other basic port related maritime infrastructure of the Authority;
- b) for passing over or through any berth or wharf of the Authority;
- c) for passing to or from a vessel while such vessel is:
 - made fast to a wharf belonging to the Authority
 - moored in any mooring basin, channel, or canal belonging to the Authority
 - made fast to another vessel, made fast to a berth or moored in any moorings, channels or similar facilities.

		SIXTH SCHEDULE: CHARGES FOR SMALL CRAFT					
A	SMALL CRAFT PROVIDING SERVICES WITHIN THE LIMIT OF THE PORT						
For the purpose of this Schedule, a Small Craft is a craft that is licensed by GPHA to undertake operational activities within the limits of the ports. Operational activity here includes transport of crew, personnel, cargo, materials, stores, fuel, water, equipment, etc. All craft operating within the limits of the port, including the operators of such craft, shall be licensed by GPHA and their operations shall be limited to their own or agency vessels. Support and supply vessels operating in Ghanaian coastal waters i.e. outside the port limits shall be excluded from this Schedule. The applicable tariffs for such vessels are Schedule 9.

B	SMALL CRAFT PROVIDING SERVICES BEYOND THE LIMIT OF THE PORT						
This part of the Port Tariffs is applicable to small Craft/Vessels deployed in Ghanaian Territorial Waters, Exclusive Economic Zone (EEZ) and Coastal Waters in services such as maritime security escort, maritime security patrols, and offshore support services. For the avoidance of doubt, these tariffs shall not apply to supply and support vessels deployed in oil and gas operations. The Owners of Craft/Vessels providing maritime security services must have entered into valid Agreement with the relevant state security agencies responsible for the development and deployment of maritime security forces, with the capability to ensure safe, secure and clean maritime domain of Ghana. Crafts/vessels deployed in other offshore operations shall be required to submit the permits from the GMA and other relevant regulatory agencies as may be required.

GENERAL TERMS AND CONDITIONS

A. PORT DUES

1. Port Dues is a charge for the use of the basic port infrastructure by vessels, cargo and passengers. The payment of Port Dues is to the account of the ship.
2. Port Dues on cargoes shipped between Tema and Takoradi shall be charged once, i.e. only, in the Port of Loading.
3. The following are exempted from Port Dues on Cargo: Mails, Goods landed in error, Passengers under 3 years of age, pets, vessels under 100 gross tons.
4. Light Dues is a Charge for the use of Navigational Aids and related facilities and services by vessels. It is payable in the first Ghanaian Port of call by deep sea vessels calling in Ghana; and it is exhausted once the vessel leaves Ghanaian waters. Vessels operating in the coastal waters of Ghana shall pay light dues on a per month basis, except small craft licensed by the Authority to operate as Supply/Support Vessels.
5. Port Dues and other charges incurred by a vessel as a result of a detention order by a Court, a Government Agency or any other Legal Authority shall be borne by the Ships' Agent or Owner.
6. Port Dues on Cargo shall be assessed on the weight or Cubic Measurement (CBM) of the cargo whichever is higher, where the goods are not in containers.
7. Port Dues on Cargo on Unpacked Vehicles shall be assessed on the basis of the category (i.e. Car, Mini, Utility, etc.) of the vehicle.
8. Port Dues on Transshipment Unpacked Vehicles are for both Inbound and Outbound and shall be charged against the Inbound vessels only.
9. Port Dues on Cargo in Containers shall be assessed on the basis of the length of the Container (20', 40', 45').
10. Port dues on Transshipment Containers are for Inbound movement only. Outbound movement shall be charged separately at the same rate.
11. Port Dues on Vessels shall be assessed on the gross tons (GT) of the vessel. It is applicable exclusively to vessels which did not call to work cargo nor embark/disembark passengers, save vessels applicable under the Ninth Schedule – Oil and Gas Services which shall pay Port Dues on both vessels and cargo.
12. Vessels discharging or loading cargo on a “free-in” or “free-out” basis may be billed for Port Dues on Cargo as follows:
 - a. 50% of Port Dues on Cargo assessed in US dollars shall be paid in US dollars.
 - b. 50% of Port Dues on Cargo assessed in US dollars may be converted into Ghana Cedi at the ruling exchange rate on the date of payment of the invoice.
 - c. Invoices raised against such vessels will be debited to the account of the accredited agent of the vessel.
13. The following are exempted from payment of Light Dues:
 - a. Vessels of less than 100 GT
 - b. Vessels calling for Bunkers, Ship's Stores, Fresh Water for use on board
 - c. Vessels in distress or calling for emergency repairs
 - d. Vessels calling for medical assistance for the crew

14. The following are exempted from payment of Vessel Dues:

- a. Vessels of less than 100 GT
- b. Vessels in distress or calling for emergency repairs
- c. Vessels calling for medical assistance for the crew.

B. VESSEL HANDLING

1. Vessel Handling Charges - also called Marine Charges - include Pilotage, Towage, Mooring/Unmooring, Shifting, Berth Occupancy, etc. and are to the account of the ship.
2. The berthing of a vessel commences when the Pilot boards the vessel and ends when the first line is sent ashore to be fastened to the bollard. Sailing of a vessel starts when the first line is taken off the bollard and ends when the Pilot disembarks.
3. Normal pilotage operation shall be performed using one Pilot. The deployment of additional pilot to assist normal vessel movement shall attract 50% of the applicable Pilotage charge for the vessel.
4. Shifting of a vessel from one berth to another commences at the exact time the Pilot boards the vessel for the purpose of shifting the vessel and ends when the last line is fastened to the bollard. Shifting of a vessel from one berth to the anchorage starts when the Pilot boards the vessel and ends when the Pilot disembarks.
5. The charge for Shifting of a Vessel from one berth to another or to the anchorage are to the account of the vessel where the movement is made at the request of the Master of the ship, or it is in pursuance of a direction given by the Harbour Master because the ship is in breach of a Port Regulation or performance standards.
6. Towage is compulsory for all vessels calling at the Port. Towage with one Tug Boat is compulsory for all vessels up to 10,000 GT and two Tug Boats for vessels above 10,000 GT. The deployment of an extra Tug boat shall attract 50% Towage charge applicable to the vessel.
7. Vessels of 300m and above in length – LOA, shall require a minimum of 3 Tug boats for Towage.
8. Mooring/Unmooring charges shall apply to all vessels occupying a berth, buoy or any mooring facility belonging to the Authority. It shall also apply to private berths, wharves, anchorage or offshore facilities where Authority employees and craft are utilized.
9. Mooring/Unmooring operations includes attendance to ropes and the supply of necessary craft and Mooring Gangs/Crew.
10. Mooring/Unmooring charges shall be applicable to all vessels berthing alongside a quay, wharf, jetty, buoys or other mooring point. It shall be paid for each movement i.e. Berthing, Sailing, Shifting, etc.
11. Mooring/Unmooring of vessel/craft at Offshore Locations e.g. SPM, CBM, Oil Production Sites, etc. shall attract double the relevant rates specified in the Tariffs.
12. The charge for Shifting of Vessels is inclusive of Towage, Pilotage, and Mooring related to the movement of the vessel.
13. Pilot Attendance is the deployment of a Pilot for operations other than normal pilotage (berthing, unberthing and shifting) of vessels. Eg. Salvage, mid-stream and offshore cargo/survey operations.
14. Berth Occupancy Charge is assessed on the Length-over-all (LOA) range in metres of the vessel. The LOA shall be as specified in the Lloyd's Register of Shipping. The berth occupancy charges commence when the first line is sent ashore during berthing and ends when the last line is taken off the bollard when unberthing.

15. Pilotage is compulsory in all Pilotage Districts. Pilotage shall be paid even if a Pilot is not deployed on the vessel. For the avoidance of doubt, all Supply/Support vessels moving in and out of the Sekondi Naval base shall be required to pay Pilotage to the Authority.
16. Pilotage, Towage, Mooring/Unmooring and Shifting charges shall be assessed on the Gross Tons (GT) range of the vessel or craft as specified in the Lloyds Register of Shipping.
17. Pilotage, Towage and Mooring/Unmooring of a vessel not under steam (i.e. with stalled/dead engine) or in distress shall attract double the relevant rates specified.
18. A vessel berthing successively at several berths during a port call, the berthing time from mooring at the first berth to unmooring at the last berth shall be considered as one continuous berthing duration for the purpose for charging Berth Occupancy.
19. A vessel or craft using the anchorage on the request of the Authority due to reasons such as temporary unavailability of a berth, bad weather, etc. shall be exempted from the payment of Anchorage Charges.
20. A vessel or craft which intends to use the anchorage for reasons, other than on the request of the Authority, shall make prior arrangements with the Harbour Master through his accredited agent by completing and submitting prescribed forms – APPLICATION TO USE ANCHORAGE - ahead of the arrival of the vessel or within 12 hours of arrival. Failure to complete the Application to Use Anchorage Forms shall attract a fine of US\$5,000.00 in addition to the charges accrued from the use of the anchorage. Vessels which do not have an accredited local agent shall be denied the use of the anchorage.
21. The permission of the Authority shall be sought at all times before a private company providing under water services is engaged to work in the Port. Failure to seek the written approval of the Authority shall attract a penalty of US\$10,000.00. The Authority shall reserve the right at any time to approve or disapprove such requests, and it may opt to perform such a service if it considers it is capable of providing such a service. Where a private company provides the service, it shall pay 25 per cent of the fees charged to the Authority as Royalty.

C. CARGO HANDLING CHARGES

1. Where the charges specified in these Tariffs are assessed on the weight of the cargo, the higher of the Cubic Measurement (CBM) to deadweight Tonne shall apply at all times. A Tonne equals 1,000 kilograms or one cubic meter (CBM).
2. Where minimum charge does not apply, charges will be calculated to the nearest Tonne. E.g. 5.2 Tonnes will be charged as 5 tonnes and 5.5 tonnes will be charged as 6 tonnes.
3. Heavy lifts shall be charged using the Cubic Measurement (CBM) or deadweight, whichever yields the higher revenue. However, in the case of conventional cargo, the heavy lift rates (i.e. the rates for lifts 6 to 10 tonnes and lifts above 10 tonnes) shall be applied if the deadweight of the cargo is used as the basis for charging.
4. For Oil and gas cargo, the heavy lift rates (i.e. the rates for lifts 6 to 10 tonnes, lifts above 10 and up to 20 Tonnes and lifts above 20 tonnes) shall be applied if the deadweight of the cargo is used as the basis for charging.
5. If the CBM is used as the basis for charging heavy lifts, in Notes C3 and C4 above; then the standard rate (i.e. the rate for lifts up to 5 tonnes) shall be used as rate for charging.
6. The cargo handling rates prescribed in this tariff apply to handling during normal working hours. Where overtime is worked additional charges shall be levied. For stevedoring operations and ship related shore operations, overtime shall be assessed on the basis of the volume (tonnes, TEUs, Units) of cargo worked. With respect to storage related shore operations, overtime shall be assessed on the basis of the number of persons deployed and the actual overtime hours worked.

7. Where additional services are required to be performed, additional charges shall be levied to cover the reasonable cost of the services provided.
8. Fertilizers, including those in containers, shipped for agricultural purposes shall be exempted from the dangerous cargo rate and charged as the rate for non-hazardous (general) goods. This includes transit cargo.
9. Live animals shall be delivered/shipped per the direct route at all times. The receiver shall provide feed, water and other needs of the livestock.
10. The cargo receiver/shipper shall supply at no cost to the Stevedore the grabs, hoppers and other dry bulk handling equipment required for loading/discharging Dry Bulk and Semi-Bulk cargoes.
11. All heavy-duty equipment (HDE) including equipment moving on metal tracks, earth moving equipment, mining dump trucks, pay loaders, crawlers, road compactors and rollers, mobile cranes, compressors, asphalt laying machines, mobile generators, etc. and others that do not normally ply on public roads shall be considered conventional cargo and charged as such.
12. All auto mobiles that are intended to carry goods and/or personnel including cars, vans, buses, agricultural tractors, building and civil engineering construction dump trucks, that do normally ply on public roads shall be considered as Unpacked Vehicles and charged as such.
13. Vehicles/Trailers in stacks of more than one i.e. two, three, four etc., stuffed with other vehicles/trailers shall attract rates as per the vehicle/trailer type for the number of vehicles/trailers in the stack.
14. Vehicles which are stuffed with personal effects or goods other than vehicle accessories shall attract one-half of the applicable rates specified under the Schedules.
15. Similarly, trailers stuffed with goods e.g. knocked down vehicle parts and components, machinery and equipment, tyres, etc. will attract one-half of the charge.
16. Vehicles stacked on trailers will attract the appropriate charge for the vehicle type.
17. Vehicles/Trailers stuffed with knocked down vehicle components, knocked down or full units of machinery and equipment shall be considered as stuffed vehicles and charged as such.
18. Articulated vehicles shall be charged as two units – i.e. as a utility vehicle and a trailer unit.
19. Stevedorage, Craneage, Labour Charges and Terminal Handling Charges of Transhipment Unpacked Vehicles are for both Inbound and Outbound and shall be charged against the Inbound vessel only.
20. Dangerous Goods Group I shall not be stored in the Port. These should be routed through direct mode at all times.
21. Transhipment of containers with Dangerous Goods shall be routed through the direct ship-to-ship mode at all times. These should not be stored in the port.
22. It shall be the duty of the owner of a container RO-RO vessel carrying containers and project cargo to maintain appropriate stock of cargo handling equipment on the ship for use by Licensed Stevedores. The use of such ship equipment by Licensed Stevedores shall not attract any charges from the Ship.
23. Where a container RO-RO vessel carrying containers and project cargo does not have appropriate equipment on the ship, the Stevedores shall charge the ship for the deployment of their equipment on the ship at the Craneage rate for all containers moved across ramp.
24. Stevedores shall not be required to make any payments to the ship with regard to the use of ship equipment e.g. cranes and derricks, cargo handling equipment (i.e. lift trucks, tractor-trailer sets, gears, etc.). This includes cargo handling equipment maintained on roll on –roll off vessels.

25. Stevedorage, Craneage, Labour Charges and Terminal Handling Charges of Transshipment Containers are for Inbound only. Outbound movement shall be charged separately at the same rate.
26. Transshipment Container volumes shall attract Rebate on Port Dues, Stevedorage and Terminal Handling Charges after attainment of throughput of 25,000 TEUs per annum. The Rebate shall be granted in accordance with the Table below:

RANGE	REBATE RATE
Tier 1 > 25,000 TEU	5%
Tier 2 > 50,000 TEU	10%
Tier 3 > 100,000 TEU	15%
Tier 4 > 200,000 TEU	20%

D. ASSIGNMENT OF CRANES AND CRANEAGE

1. The Authority and its Licensed Operators/Concessionaires reserve the right to assign a Quay Crane or Mobile Harbour Crane to expedite cargo loading/discharging operations on ships. Such crane deployments shall attract appropriate Craneage.
2. Craneage is in addition to the Stevedoring and Labour Overtime Charges. It is to the account of the ship.
3. A minimum Craneage Charge is applicable when the volume of cargo handled during a ship call is low and the total income earned from Craneage is less than the minimum amount specified per Crane.
4. Craneage is only applicable when a Crane is deployed as part of Stevedoring Operations.

E. LABOUR CHARGES

1. Labour Charges are in respect of Overtime, Stand-By, Idle Time, Extra Service for Ship Operations and Receipt and Delivery Operations.
2. Labour Charges for Ship Related Shore Activities include Overtime, Delay/Idle Time, Stand-by and Extra Service and are in respect of Ship Operation (Stevedoring, Receipt, Delivery Operations) against a working ship. The charges shall be applied to Imports, Exports, Transshipment and Transit Cargoes and are to the account of the Ship.
3. The Labour Overtime Charge for ship related shore activities shall be determined on the basis of the nature and volume (tonnage/unit/TEU) of the cargo. The rates shall be applicable whether or not vessel works during overtime hours.
4. For the avoidance of doubt, Labour Delays/Idle Time/Standby hours in ship-related activities during overtime hours shall be logged and invoiced. Overtime hours are defined in Items 8 and 9 below.
5. Labour Standby Charges (ship related) shall be raised when labour is deployed during both normal duty and overtime hours when request had been made by the customer.
6. Labour Charges for storage related shore activities shall apply to both Receipt and Delivery of Cargo from/to the storage facility. It shall apply to all trade categories – Imports, Exports, Transshipment, Transit, etc. and it is to the account of the Consignee.

7. Labour Overtime for storage related shore activity shall be assessed on the basis of the number of persons deployed (with prior agreement of agent/consignee) in each category and the actual overtime hours worked. The charges are to the account of the Cargo Receiver/Consignee.
8. Overtime hours for stevedoring operations including ship related receipt and delivery operations are:
 - (a) Monday to Friday - **Day Shift:** 1230 - 1400 GMT; 1700 - 1930 GMT; **Night Shift:** 0330 - 0730 GMT.
 - (b) Saturday, Sunday and Public Holiday: **Day Shift:** 0730 - 1930 GMT; **Night Shift:** 1930 - 0730 GMT.
9. Overtime hours for Receipt and Delivery Operations (storage related) are:
 - (a) Monday to Saturday: **Day Shift:** 1530 – 1930 GMT; **Night Shift:** 0330 - 0730 GMT.
 - (b) Sunday and Public Holiday: **Day Shift:** 0730 -1930 GMT; **Night Shift:** 1930 - 0730 GMT.
10. Cargoes shifted via quay or on board and those landed in error by the stevedore are exempted from the Labour Overtime Charge.
11. Extra Service charge is applicable when labour is deployed by the Stevedore to undertake jobs that are ancillary to stevedoring operations. E.g. trimming of dry bulk cargo, salvage of damaged cargo, stuffing/unstuffing of ship convenient containers, cleaning of hatches, laying of dunnage, etc. The charge should be based on the actual / effective number of men deployed to do the job.
12. In Receipt and Delivery Operations, the Extra Service Charge is applicable when the labour is deployed in ancillary shore activities such as salvage of damaged cargo, weighing of cargo, bagging of spilled cargo, etc.
13. When labour is booked exclusively for extra service, the minimum chargeable time is 8 hours.
14. The preparation of Vehicle Condition Reports (VCRs) and other documentation associated with the handling of vehicles is an integral part of the handling and shall not attract the Extra Service Charge.
15. The Hire of Labour (Non-Stevedoring) Charge is applicable to activities non-related to traditional stevedoring and shore-handling cargo operations. The hirer of the labour shall be responsible for the deployment and supervision of the labour supplied. The hirer shall also be solely responsible for any liability arising out of the actions of the person(s) employed.
16. The charges for Terminal Handling, Storage and Transport of on Empty Containers shall be to the account of the ship's agent.
17. The Terminal Handling Charge for Transshipment Containers is for one leg of the shipment.
18. The charge for the Evacuation of Empty Containers does not include Lift-On-Lift-off Charge at the destination.

F. STORAGE AND WAREHOUSING RENT

1. Storage rent on inbound containers/cargo (Imports, Transshipment Inbound, Transit Inbound) shall be computed from the date of completion of discharge of the carrying vessel to the date of delivery.
2. Storage rent on Export containers/cargo shall be computed from the date of receipt of the box in the Port to the date of loading onto the carrying vessel.
3. Notwithstanding Items 1 and 2 above, with respect to a vessel whose operations is disrupted eg. shifted to anchorage, breakdown of ship equipment, dispute, etc. storage rent days for discharged cargo shall commence from the last day of operation prior to the disruption.

4. For import containers unstuffed in the Port/ICD, storage rent on the Empty Container shall be computed from the date the container was unstuffed (emptied) to the date of evacuation from the Port/ICD or the date of shipment of the Container.
5. Cargoes consolidated for Export, including empty containers but which are later removed from the Port for one reason or the other shall attract full storage rent for the period spent in the Port. This shall be in addition to the relevant Receipt and Delivery Charges. Such cargoes shall not enjoy any rent free days and shall be charged from the date on which they were received in the Port to the date they were removed.
6. Empty Containers imported with the intention of using them to ship Export cargoes but which are later shipped as Empties shall enjoy 7 days' storage rent free period.
7. Transit Containers shall not attract any rebate on storage charges when empty and shall be invoiced as though they were Exports.

G. HIRING OF FLOATING CRAFT AND EQUIPMENT

1. The hiring of any plant or equipment shall commence from the time the plant leaves its station until the time of its return thereto. This requirement may be waived or modified under special circumstance, e.g. distance, duration of hire, etc.
2. The Hire of Floating Craft or Cargo Handling Equipment owned by GPHA shall be at the absolute discretion of GPHA. It may request for additional condition of insurance to be complied with for specific tasks in connection with the use of the craft or equipment.
3. The equipment hired out by the Authority to a Hirer shall not be transferred to another party by the Hirer.
4. The charges for the hire of equipment are applicable irrespective of whether the service is rendered during weekday, weekend, public holiday, day or night.
5. For the purpose of equipment hire "Within Port" refers to the enclosed Harbor Basin and locations within the Anchorage Area "Outside Port" refers to locations beyond the limit of the Anchorage Area with respect to floating craft. For cargo handling equipment, "Within Port" in Tema refers to locations within the immediate port area boarded by the Meridian Road and the Tema Fishing Harbour Road. "Outside Port" refers to locations outside the Meridian Road and the Tema Fishing Harbour Road. In Takoradi, "Within Port" refers to locations within the port perimeter fence. "Outside Port" in Takoradi refers to all locations outside the port perimeter fence.
6. The equipment hire charge includes the operational and technical crew of the equipment.
7. Minimum charge for hire of floating craft is two hours for locations "Within the Enclosed Water Area", three hours for locations "Within the Anchorage Area" and four hours for locations "Beyond the Limits of the Anchorage - Offshore". A two hours' charge shall be raised when a confirmed booking is later cancelled before work could begin. The hire period starts from the time the craft departs the berth to the time it returns.
8. The minimum hiring period for cargo handling equipment is four hours for equipment required Outside Port and two hours for use Within Port. A two hours' charge shall be raised when a confirmed booking is later cancelled before work could begin. The hire period starts from the time the equipment departs the plant pool to the time it returns.
9. The hirer of an equipment/item cannot transfer or sub-hire equipment hired to third parties without the written consent of the owner of the equipment.
10. The charge for hire of the Diving Pontoon includes the use of on-board equipment.
11. The charge for the deployment of the underwater camera includes the Diver.

12. For floating craft, the hiring period shall be deemed to commence when the craft leaves its mooring to proceed to the location and to cease when the craft returns to its mooring. The charge shall be payable whether or not the purpose of hiring has been effected.
13. The hire of craft for salvage operations e.g. towage of dead vessels, assisting vessels in distress, etc. shall attract double the hire rates specified in the Fifth Schedule. This condition shall also apply to Tug Boats deployed to assist in the operations of Floating Storage Units (FSUs) at midstream, Anchorage or other Offshore Locations.
14. The vessel or craft and all its appurtenances are presumed to be in good operating condition and seaworthy when turned over to the user, but the Authority does not warrant the mechanical condition thereof, and will therefore, not accept responsibilities for delays to user from any cause whatsoever.
15. The Authority reserves the right to stop the operation of any craft or vessels at any time to require repairs that appear in the opinion of the Authority, to be necessary.
16. The hirer or user of any vessel or craft assumes sole responsibility and liability for injury to or death of any person whosoever, or damage to or destruction of property, including employment and property of the possession, use of, operation of the vessel or craft and shall protect and indemnify the Authority, its officers and employees from and against any and all suits, claims, demands, losses, expenses, liabilities of any kind or nature whatsoever for said injury to or death of persons or damage to or destruction of property, and that may be, in whole or in part, incidental to, arise out of, or be caused, directly or indirectly, through negligence or otherwise by the hirer's or users' possession, use or operation of the vessel or craft, whether by user, its officers, agents or employees, or by any person or person acting with the knowledge and consent of the hirer or user.
17. The hire of fire-fighting equipment to any offshore facility shall attract double the rates specified in the Schedule. The minimum hiring period for fire-fighting equipment shall be two (2) hours Within Port and four (4) hours Outside Port.
18. The hire of Fire Fighting Equipment for vessel related Stand-by/Attendance/Monitoring Operation shall commence from the time the vessel took berth till the time she sails.
19. The cost of chemical used in fire-fighting shall be charged separately.
20. The charges for the hire of floating craft and equipment are applicable irrespective of whether the service is rendered during weekday, weekend, public holiday, day or night.
21. All gears supplied shall be deemed to be in good order and shall be returned in safe, clean and sound condition. All damaged gears shall be repaired or replaced by the Hirer.
22. The number of pumps required for standing by or for fire attendance services shall be determined by the Fire Manager.
23. Hire of Grabs, container Spreaders and Cargo Handling Gears to a location outside the Port shall attract double of the rates specified in the schedule.

H. LICENCE FEES FOR SMALL CRAFT

The Licence Fees and Dues in respect of Small Craft, Supply and Support Vessels are annual charges and shall apply to individual vessels/craft licensed to operate in the Port. The operator of the vessel/craft shall be licensed by the Port as a "Small vessel/Craft Operator".

I. PASSENGER ACCOMPANIED BAGGAGE

Maximum of four packages not exceeding a total of 50 kg is exempt from charges. Excess baggage is chargeable according to tariff.

J. LIABILITY FOR MIS-DELIVERY

The Authority shall not be liable for the loss, mis-delivery, detention of or damage to any good whatsoever and howsoever caused in transit areas, except when such loss, mis-delivery, detention or damage is caused by want of reasonable foresight and care on the part of the Authority or any servant of the Authority. For the avoidance of doubt, independent contractors are not servants of the Authority and shall not be deemed as such.

K. LOGS AND CURLS

1. The charges specified for logs and curls shall be payable by the contracting agents on behalf of the owner of the logs or curls on the tonnage shown on the ships' manifest.
2. Storage rent on rejected logs shall be payable by the contracting agents on behalf of the owner.

L. REMOVAL OF GOODS DETAINED BY CUSTOMS

1. Under no circumstances shall goods be allowed to remain in a transit storage facility for any period in excess of 60 days (subject to Customs and Excise Regulations) from the date of completion of discharge. Goods still lying in a transit storage after this maximum period allowed shall be removed to the State Warehouse or designated facilities for such overstayed consignments in the case of goods not yet entered at Customs. In the case of goods entered at Customs, these may be auctioned by Customs.
2. Any expenses incurred by the Authority in respect of such removal or sales shall be a charge against the goods.
3. The Authority accepts no liability whatsoever and howsoever caused for loss, damage, deterioration of goods transferred to the State Warehouse, Government Warehouse, the Back Sheds, Overstayed Container Terminals, etc.
4. The Authority shall in no way be responsible for goods detained by the Ghana Customs or other recognised authorities, to undergo special examination, testing, treatment, fumigation, destruction or otherwise. Any expenses incurred by the Authority in this regard shall be a charge against the owner of the goods.

M. MAXIMUM STORAGE PERIOD OF EMPTY CONTAINERS

The maximum storage period for any empty container is 90 days from date of receipt at the Port or date the container become empty. After the 90 days the container will be impounded and legal procedures will commence with the view to its disposal through auction to defray costs.

N. CONVERSION OF US DOLLARS TO GHANA CEDIS

Unless otherwise specified, where agreement is approved to charge in Ghana Cedi a tariff, which is shown in US dollars, then the cedi charge shall be at the rate of exchange on the date of payment.

O. UNSTUFFING OF TRANSHIPMENT CARGO

Any transshipment container whose contents are unstuffed or re-packaged in the Port will lose the concessionary transshipment tariff rates and be charged as import for the inbound and re-export for the outbound.

P. REEFER CONTAINERS

1. It is the duty of the agent of the carrier/cargo to ensure that the compressor and refrigeration system of a Reefer Container is in a perfect working condition at all times. The Ghana Ports and Harbours Authority shall not be liable for any malfunctioning of any component of a Reefer Container, which might affect the condition of the content thereof.

2. The Agent of the carrier vessel shall be responsible for the payment of all charges electricity, handling, storage, etc. that accrue on a Reefer Container is not claimed or cleared, or those whose contents are due for destruction by Customs, Port Health, etc.

Q. DEFINITION OF TERMS

1. **ADDITIONAL HANDLING OF CONTAINER:** This is the handling of a container not directly connected to loading, discharging, receiving or delivering. E.g. transfer of container from one truck to another at the instance of the consignee; movement of container from one location to another at the request or convenience of the consignee; re-evacuation of short shipped containers from the quay back to the Empty Container Yard; re-evacuation of unstuffed empty containers or stuffed containers from the Stuffing Bay or the Export Terminal back to the Empty Yard etc. The charge is applicable to Imports, Exports, Transshipment, and Transit containers handled under similar conditions. Quay transfer of containers during ship operation/stevedoring does not fall under this item.
2. **ADDITIONAL SORTING** - The sorting of consignments/packages to consignees' mark and numbers, drop numbers etc.
3. **BULK CARRIERS** - Bulk Carriers vessels designed to carry dry bulk cargoes. This include Container-Bulk Carriers (Con-Bulkers). Vessel Handling Charges with respect to these type vessels shall be applicable irrespective of cargo carried to the Port.
4. **BULK-IN-BAGGED-OUT [BIBO]** - A Bulk-in-Bagged-Out [BIBO] Operation is one in which cargo arrives in the port bulk and is bagged at shipside. The shore operator shall be responsible for the transfer of indirect routed BIBO Operations into storage.
5. **BULK CARGO – GRABBING/CONVEYOR** – These are dry bulk cargoes loaded with grabs and hoppers, pneumatic or other continuous handling systems
6. **COASTAL TRAFFIC** – This is short sea shipping in Ghanaian and West African maritime waters. It includes National Coastal, Intra-regional trade and Regional Feeder (transshipment) traffic carried on Ghanaian registered vessels or any vessel licensed to be deployed exclusively in the coastal waters of the ECOWAS region.
 - **National Coastal Traffic** – This is cargo produced or imported and cleared by customs for consumption in Ghana and shipped from one Ghanaian port to another; and carried on a vessel licensed to be deployed in national (Ghanaian) or regional (ECOWAS) coastal waters. For the avoidance of doubt, National Coastal traffic excludes bonded cargo carried /meant to be carried on deep sea vessels transhipped through Ghanaian ports. National Coastal traffic shall include the shipment of recirculation empty containers between Ghanaian seaports. Traffic handled by vessels deployed in offshore oil exploration and production are excluded from the definition of National Coastal Traffic.
 - **Intra-regional Traffic** – This refers to cargo produced in or imported to Ghana or other ECOWAS countries and traded among the Member countries of ECOWAS as imports, exports or Re-export and carried on Ghanaian registered vessels or vessels licensed to be deployed in national or regional (ECOWAS) coastal trades.
 - **Regional Feeder Traffic** – This is cargo carried inbound on deep sea vessels and transhipped from Ghanaian ports to ports of other ECOWAS countries on Ghanaian registered vessels or vessels licensed to be deployed in national or regional (ECOWAS) coastal trades.
7. **CONTAINERS** - Containers include ISO and Non-ISO units; Flats, Platforms, and Bolsters. With regard to dimensions, 20 feet Containers include all Containers up to 20 feet in length. Forty (40) feet Container include all Container above 20 feet in length and up 40 feet in length. Forty-five (45) feet Containers include all Containers above 45 feet and up to 53 feet in length. Forty-five (45) feet Containers and others above 40 feet in length will be deem to

be 2.5 TEUs for the purpose of billing. For the avoidance of doubt, Containers exclude Skips, accommodation units, goose necks, ro-ro trailers and other wheeled cargo transport units.

8. **DIRECT HANDLING** - The continuous handling of cargo between ship and inland conveyance (road, rail or inland waterway transport) where the cargo does not undergo any intermediate transit storage.

9. **DANGEROUS GOODS (DGs)**

(i) **Definition**

Dangerous goods are:

- a. Substances, materials and articles classified in accordance with Chapter 4 of the International Convention for Safety of Life at Sea, (SOLAS) 1974, as amended and covered by the provisions of the International Maritime Dangerous Goods Code (IMDG Code) of 1977 and its supplements and later amendments.
- b. Oils, covered by Annex 1 of MARPOL 73/78
- c. Noxious liquid substances or chemicals, including wastes, covered by the Codes for the Construction and Equipment of Ships Carrying Dangerous Chemicals in Bulk and Annex II of MARPOL 73/78
- d. Solid bulk materials possessing chemical hazards and solid bulk materials hazardous only in bulk, including wastes covered by Appendix B of the Code of Safe Practice of Solid Bulk Cargoes.
- e. Any uncleaned empty package, such as tank containers, receptacles, intermediate bulk containers, bulk packaging, portable tanks or tank vehicles that previously contained dangerous cargoes, unless the package has been sufficiently cleaned of residue of the dangerous cargoes and purged of vapours so as to nullify any hazard or have been filled with non-dangerous substance.

(ii) **Operational Classification**

The Ports of Ghana, for operational and tariff purposes, have categorised Dangerous Goods into two viz. Dangerous Goods Group I and Dangerous Goods Group II.

Dangerous Goods Group I - Dangerous Goods Group (DG) I consist of substances, materials and articles classified under the following:

- IMDG Class 1 – Explosives
- IMDG Class 2 – Flammable and Poisonous Gases
- IMDG Class 5 – Oxidizing Substances and Organic Peroxides
- IMDG Class 7 – Radioactive Substances

Dangerous Goods Group II - Dangerous Goods Group (DG) II consists of substances, materials and articles classified under the following:

- IMDG Class 3 – Flammable Liquids
- IMDG Class 4 – Flammable Solids, self-reactive substances liable to spontaneous combustion, substances which in contact with water emit flammable gases.
- IMDG Class 6 – Toxic and Infectious Substances
- IMDG Class 8 – Corrosive Substances
- IMDG Class 9 – Miscellaneous Dangerous Substances and Articles

(iii) **CONTAINER WITH DANGEROUS GOODS I:** These are containers described or said to contain goods classified under IMDG Class I, II, V, and VII. These containers shall be delivered/shipped per the direct route at all times. The indirect charge shall be applied whenever the container is routed per the indirect route for whatever reason (s).

- (iv) **CONTAINER WITH DANGEROUS GOODS II:** These are containers described or said to contain goods classified under IMDG Class III, IV, VI, VIII and IX. These goods shall spend only a limited time in the Port.
 - (v) **CONTAINER WITH MIXED GOODS** - Containers stuffed with a mixture of General Goods and Dangerous Goods shall be considered as a Container Stuffed with Dangerous Goods and charged as such.
 - (vi) **CONTAINER WITH GENERAL GOODS:** These are containers described or said to contain goods not classified as dangerous under the IMDG Code. Container with General goods includes those said to contain vehicles, engines/spares, bicycles, motorbikes, rebars, steel billets, steel plates, steel coils, steel columns angle irons etc. and machinery and equipment.
 - (vii) **GENERAL GOODS** - General Goods include bagged rice, bagged sugar, iron and steel products, and other goods not classified as hazardous under the IMDG Code.
 - (viii) **DANGEROUS EMPTY CONTAINER** – Dangerous Empty Container refers to an empty container that was used to carry goods classified under the IMDG Code and which have not been cleaned or decontaminated; and still have the dangerous goods placards/labels pasted on it at the time of shipment/landing at the Port.
- 10. **DIRECT TRANSHIPMENT** - Direct transshipment involves the handling and movement of cargo from the inbound vessel to the outbound vessel at the same time and without any intermediate storage.
 - 11. **DIRTY CARGOES** - “Dirty Cargoes” refer to cargoes that mess up or foul the quay aprons, storage and other operational areas of the Port during handling, storage and transport. It includes cargo that emits dust particles into the atmosphere.
 - 12. **DUMP BARGE** - A dump barge is barge that is not self-propelled and moved around by the assistance of a tug boat.
 - 13. **EXPORTS** – These are produce of Ghana for shipment to foreign markets. It includes all Traditional and Non-Traditional Export commodities like cocoa beans, raw timber (lumber) and minerals or mineral ore, processed lumber (plywood and veneer), processed cocoa, horticultural products and garments.
 - 14. **FAILURE TO REPORT FOR DELIVERY:** This is a charge applicable to Consignees or their Agents who fail to report to effect delivery after scheduling of Container for Deliveries and for which Containers are positioned at the Delivery Bay for delivery. Such Consignees will have to cancel and reschedule delivery of their Containers again when they are ready.
 - 15. **FIRE ATTENDANCE** - Fire Attendance refers to response of fire tender and crew to fire incidents.
 - 16. **FIRE STAND-BY** - Stand-by is the deployment of fire equipment and crew to mitigate fire threats.
 - 17. **FIRE SAFETY DUES** – Dues chargeable to vessels for the use of in-built fire suppression systems installed at Liquid Bulk Terminals.
 - 18. **FIRE/SAFETY MONITORING AND SUPERVISION** - Fire/Safety Monitoring and Supervision is the deployment of fire equipment and crew or firemen to provide technical advice and supervise operations of clients.
 - 19. **GENERAL PORT CLEANING DUES** – This is a general port charge for the cleaning of the port. It is assessed against all dry bulk and “dirty cargoes”. The charge is to the account of the ship.
 - 20. **GROSS TONNAGE (GT) OF VESSEL** - Gross tonnage of a vessel measured in accordance with the International Convention of Tonnage Measurement of Ships (1969), which came into effect on 18th July 1994.

21. **INDIRECT HANDLING** - The handling of cargo between ship and inland conveyance, which involves the routing of the cargo through some form of transit storage. The shore operator shall be responsible for the transfer of indirect routed BIBO Operations into storage.
22. **INDIRECT TRANSHIPMENT** - Indirect transshipment involves the handling and movement of cargo from the inbound vessel into transit storage for subsequent shipment on outbound vessel.
23. **INLAND CLEARANCE DEPOTS (ICDs)** - ICDs (also called Off Dock Terminals) are Terminals licensed or authorized by the Authority to provide Receipt, Delivery and Shipment Services of Containers and Vehicles. They include the Safebond Car Terminal (Tema and Takoradi), Tema Container Terminal, Tema Bonded Terminal, Africa Coastal Services, APM Terminal, TACOTEL (Takoradi), etc.
24. **INLAND CLEARANCE DEPOTS (ICDs) HANDLING CHARGE** – This is a charge for delivering Inbound (Import/Transit In) container to a consignee.
25. **INTER-TERMINAL TRANSFER** - This is the movement of containers, vehicles and other cargoes from one On – Dock terminal to another. For the avoidance of doubt, the transfer of cargo (Conventional and Containers) from one Licensed ICD to another Licensed ICD shall be charged using the same rate as transfer of cargo between Terminal 1 and 2.
26. **ISPS DUES** – This is the charge for the implementation of the requirements of the International Ship and Port Security Code. Reference chapter XI-2 of SOLAS Convention 1974/1988 which came into force in July 2004. The ISPS Charge is to the account of the ship.
27. **LAYBY CHARGES** - The Layby Charges are applicable to Oil Rigs, Production Platforms and similar craft which are stemmed at mid-stream i.e. away from the quayside but within the sheltered area of the harbour; and are undergoing repairs or maintenance.
28. **LENGTH-OVER-ALL (LOA) OF VESSEL** - Length over all means the length of a vessel measured in metres from the extreme point forward of the vessel to the extreme point aft of the vessel and such appearing in the Lloyd Register of Shipping.
